## YOUR PERSONAL HOROSCOPE

A hard-working person who is generally well liked and admired. You are independent, and are well known for your individuality. You intuitively gravitate towards tasks to which you are well suited.

You excel when faced with a challenge as you have this need of challenge. You can be very foolhardy and a risk taker. You have a great breadth of vision and the ability to assimilate a complex situation quickly and gain control; however, coping with details is boring to you and for this reason you should always read the fine print before signing any documents. You have a charming sense of humour but you can let it get out of hand; practical jokes are rarely funny to the victims. You have an independent spirit and enjoy personal freedom. You must have challenge in his your work, no crowded office or boring routine work for you. Acquiring money is not a burning issue for you but you can usually find it when needed. You can be a spendthrift or even a selfish person when it comes to buying what you want first and buying for everyone else later.
